

Things to Know

Wireless internet is available throughout the house and out on the deck.

If you have Verizon service, your cell phones should work at the guest house as we have installed a signal booster. Other cell phone providers may not work consistently, but usually text will work through the internet service.

Complimentary shampoo, conditioner, lotion and bath soap are provided for your stay. (Compliments of years of business travel during which your hosts could not resist collecting hotel amenities!)

We have rented dozens of mountain homes ourselves over the years and were often frustrated at the lack of things like paper goods, trash bags, plastic wrap or storage bags. At the Guest House, we try to keep commonly used items like these in supply.

Likewise, we have provided common spices and condiments like mustard and ketchup. Feel free to use any such items as needed.

Extra towels can be found under the sink in both bathrooms.

Because the guest house uses a septic system, there is no garbage disposal in the kitchen. Please be careful of allowing food to go down the drain.

Food and trash left outside WILL attract critters that you will not enjoy. PLEASE be sure that all trash is placed in the plastic trash bags provided and then secured in the animal-proof trash containers.

We want you to enjoy the wood burning fireplace, but we do not want any fire damage. If you are not familiar with safely building and managing fires, we respectfully request that you use easy-to-light fire logs which provide a safe, enjoyable evening fire.

There is a gas grill outside next to the deck. Please clean the grate after using.
